MOBILE SOLUTIONS TO IMPROVE STUDENTS' LIFE ON CAMPUS AT RUPP

Advisors: Dr. Christelle Scharff (Pace University, NY, USA), Mr. Chanthong Bormy

Keywords: Mobile Solutions, SMS, Bluetooth, Mobile Web Application, Native Mobile Application

Field related: Market Research, Programming

Abstract

Mobile phones are everywhere and used by everybody in Cambodia. Universities around the world are looking at supporting hand-held mobility. This project will research what mobile solutions are adequate to improve life on campus in the particular case of RUPP. Different mobile solutions for RUPP will be developed and piloted in collaboration with the input of the large community at RUPP. The sustainability of these solutions will be studied.
