Cambodia MSP Program Description | 2011–2012 Academic Year

What are we looking for?
If you're passionate about technology, love throwing fun events on campus, and aren't shy about sharing your enthusiasm for the latest Microsoft products, you could be the perfect fit for the Microsoft Student Partners program! Whether you're a tech junkie or a marketing guru, you could have the chance to be the Microsoft rockstar of your campus.

We're looking for students who are addicted to posting on Facebook, Twitter and Blogs (wordpress, blogspot...etc), are really involved in leading in campus organizations, and have a passion for technology and for Microsoft. If you want to share your enthusiasm and develop industry-leading skills, we want to hear from you.

What will you do?
You'll be recognized as the Microsoft Student Partner on your campus! You'll spend the year planning campus events, sharing your experiences via social media, demonstrating the latest technologies wherever you go, weekly TechClub Talk, Roadshow, Technology Research Project on Multi-Touch, RIAs, Windows App Design, and get ready to participate in Imagine Cup Competition.

Our Microsoft Student Partners this past year:
- Created amazing presentations with the new Microsoft Office 2010 suite of products and Windows 7 and Windows v.Next.
- Demoed Kinect for Xbox 360 to their friends just as it came off the shelves.
- Showed off the amazing features of the brand new Windows Phone 7 and how to develop its application.
- Promoted Imagine Cup, the world's premier student technology competition.
- Show off the new version of IE, IE9 brings more beauty of the web, Microsoft Silverlight 4 and 5 beta.

Every month we'll have training webcasts / In-Person with leaders within Microsoft to enhance your learning about latest technology and the real world experiences.

What's in it for you?
You'll get plenty of exposure and recognition on campus with faculty and students. You'll also have access to numerous benefits including Microsoft products, software, reference materials, training, and the inside scoop on future job opportunities. You'll get direct interaction with Microsoft professionals and their partners. And, you'll gain the skills that could land you that important job or internship.

What's the fine print?
The time commitment is 5–10 hours a week. Students must be enrolled full time in one of the selected accredited academic institutions within Phnom Penh City, Cambodia. Students must be in year 2 or year 3 of the academic program which is fall in to one or more of the following area: Science, Technology, Engineering, Math or Design. All students must have valid identification and be eligible to work in Cambodia from July 1, 2011, through June 30, 2012.
